

Common questions about home delivery

What is home delivery?

Your prescription benefit offers delivery of maintenance medications — those you need on a long-term basis — right to your door, with free standard shipping. (You should use a retail pharmacy for medications you take on a short-term basis, such as antibiotics.)

How easy is it to get started?

Very easy. Visit **Express-Scripts.com**, sign in and choose which of your current maintenance medications you'd like to receive through home delivery. Or you can call us at the toll-free number on your ID card. We'll take care of the rest.

Do I need to call my doctor about this?

Most people prefer to have us contact their doctor to get a new 90-day prescription for home delivery. Just get started as described above, and we'll follow up with your doctor if necessary.

How long will it take to get my medication?

When you fill a prescription through home delivery for the first time, you should receive your medication within 8 days after Express Scripts receives your order. Refills are usually ready sooner — within 3 to 5 days.

Express-Scripts.com

Express Scripts manages your prescription benefit for your employer, plan sponsor or health plan.

¹Includes services provided by the Medco Pharmacy® and the Express Scripts PharmacySM.

Home delivery pharmacy services from Express Scripts¹ can help you **stay healthy and lower your costs**. It's all part of your prescription benefit — at your door and at your fingertips.

Join the millions of others who have chosen to get their medications delivered at home, for less.

For the affordable and convenient pharmacy care you need, choose home delivery today. You'll get up to a 90-day supply of maintenance medications, with *free* standard shipping.

Health and safety support

- Our pharmacists are available 24/7 to help answer your medication questions.
- Specialist pharmacists have in-depth training in the medications used to treat specific conditions, such as high blood pressure, high cholesterol and diabetes.

Cost-saving services

- You'll typically pay less by getting up to a 90-day supply.
- Savings notifications let you know when you have new ways to save.
- Prescription benefit specialists can help you find other cost-saving opportunities, such as using generics.

At-home convenience

- Enjoy free standard delivery right to your home.
- Automatically receive refill reminders by email or our mobile app so you never run out.
- Refill your medication by phone, online or with our mobile app.
- With your permission, we will contact your doctor when it's time to renew.

Mobile pharmacy

- Use the **Express Scripts mobile app** to refill prescriptions, check order status, view alerts, search for potential savings, find a local pharmacy and more — wherever, whenever.
- The app is free to download. Simply search for “Express Scripts” in your mobile device’s app store, download it and sign in today.
